

# Paul F. Rottmann, PhD

## PROFESSIONAL PREPARATION

---

University of Kentucky	Materials Science & Engineering	B.S. 2010
Johns Hopkins University	Materials Science & Engineering	M.S. 2012
Johns Hopkins University	Materials Science & Engineering	Ph.D. 2017
University of California, Santa Barbara	Postdoc focus: Materials Characterization	2017-2019

## APPOINTMENTS

---

University of Kentucky	Assistant Professor	2019-current
------------------------	---------------------	--------------

## RESEARCH INTERESTS

---

The aim of my research is to connect the macroscopic properties of materials to the underlying nanoscale mechanisms that govern their behavior through the use of advanced characterization techniques. Currently, Two areas of particular interest are developing methods to map the complex processing – microstructure – properties relationships for additively manufactured metals as well as developing novel thin film alloys for high temperature applications.

## PUBLICATIONS
